Casa Morada

Secluded Island Getaway

Casa Morada, one of Islamorada's favorite tropical retreats has added to it's 16 all-suite "island" hotel. World-renowned landscape architect/artist Raymond Jungles, fifteen-time award recipient of the Florida Chapter of the American Society of Landscape Architects, has transformed the

landscaping throughout the entire property. The metamorphosis begins at the entrance to the property with the construction of a dramatic front garden and reception area. In the center of the property, near the garden suites, a grotto has been created, sculpted from the native limestone, and a bocce ball court with a hilltop private dining area has been added. Casa Morada is hidden away

in a quiet residential neighborhood on the Florida Bay. Located half-way between Miami and Key West, the island offers the perfect vacation getaway. It hosts suites with private terraces and gardens, a spectacular pool, a secluded cabana and a waterside terrace for breakfast, lunch and poolside beverage service. **For reservations call toll free (888) 881-3030, (305) 664-0044 or visit www.casamorada.com.**
